

Air India to Offer Low-Fare Red-eye Flights

Red-eye flights

Air India will introduce red-eye flights with fares lower than the normal fares on sectors like Delhi-Goa- Delhi, Delhi-Coimbatore-Delhi and Bangalore-Ahmedabad-Bangalore.

The announcement of the launch of red-eye flights to some of the domestic destinations, including Goa, starting November end brought the much needed cheers to the flier community.

A red-eye flight departs generally late at night and arrives early morning. Because of their low fares, these flights are quite popular abroad, especially in the US and Europe.
